Q. Critically examine the relationship between the preamble's ideal of 'sovereignty' and the the increasing globalization of India's economy and polity.

Justice Hidayatullah termed preamble as the soul of the constitution.

preamble of Indian constitution starts with We the people of India, having solemnly resolved to constitute India into a [sovereign, socialist, secular democratic Republic]

Sovereign → It is the freedom of making law of a country without any external interferences.

- Indian law is supreme of all.

No authority
above India.
free to
conduct its
affairs without
interference

Sovereignty
of India

India is neither
dependent on another
nation in law making

India can acquire or cede any
territory

India's Sovereignty helps to,

- 1) take own decision without interference.
- 2) acquire and cede territory to other nation.
- 3) Step wise law making procedure are followed without outside nations interferences.

Sovereignty of India as per globalisation point of view:

- i) It causes layers which delays the projects.
- ii) more paperwork involves.

as India's rank in case of doing business is 63.

- iii) India having parliamentary sovereignty so, govt is volatile, change in government causes project delays.

- iv) vote appeasement policies, political parties sees economy growth as an opportunity to take credit among their voters.

- v) inflow and outflow of Economy, ~~in~~ scope of corruption at every layer of authority offices.

India has,

- 1) reduced paper work in taking license and permission and our Ease of doing business rank has improved to 63.
- 2) Introduction of digital platform registration portal has reduce the scope of corruption.
- 3) FTA and MOU with nation across the globe, helps to Expand indian economy on its own terms and conditions.
- 4) FDI inflow to india has increased due to its flexibility in global market.

recently, we have seen the Sovereignty of India in India, US trade talk, where India is developing Memorandum of understanding on trade with US on its terms and conditions. and,

our economy is 5th largest economy and projected to surpass Japan and become 4th by 2025. Shows India's model of Sovereignty is prevailing with a success to achieve targets.

3) Equality :-

Preamble has given ideals of Equality of Status & opportunity

4) Fraternity :-

- It ensure sense of brotherhood among citizens.
- It promotes and preserve dignity of individual.
- It is about unity and integrity of nation, by single citizenship and fundamental duties.

these ideals remain incomplete till

Challenges:

- 1) Caste based discrimination.
- 2) Gender inequality. women and gender violence
- 3) Economic disparity as gap between rich and poor is huge.
- 4) Law and order implementation. get hindered due to lack of awareness and favouritism.

Overall India has made significant change and progress in providing Justice, Liberty, equality and fraternity. Still social and economic challenges are a major concern area and with strict law implementation and social awareness and acceptance can be achievable.
